## This month's Demo Bob Hickernell

**MEETING DATE**  
27 May 7:00 pm, Kitsap  
Adventist School 5088 NW  
Taylor Rd. Bremerton, WA  
With Social, Library, Show and  
Tell Tables and wood auction  
viewing before

Bob (Hicke) will be demonstrating Eccentric or Multi-Axis turning. That is turning that is off-center, tilted or combinations there of. The result is that various cross sections of the workpiece are rotationally symmetric, but the workpiece as a whole is not symmetric.

### Membership message

Membership dues will be collected at this months' meeting. Dues are still a good deal at \$25.00 (cash, check or money order).

Remember that membership dues are the club's main source of revenue.

Dues may also be sent to:

OPCAAW  
P.O. Box 4158  
Bremerton, WA. 98312

## Message from the President

“ONE MAN’S JUNK ANOTHER MAN’S TREASURES”

May 2009

For those of you that attended the monthly meeting in April you will recall that Norm Hix our Past President announced that on we would be having a “Swap Meet” on Sunday, July 12<sup>th</sup> from 9:00 AM to 3:00 PM.

Why a “Swap Meet”? , there are many reasons:

1. To appease the wife who more than likely classifies all your treasures as JUNK.
2. To give you an opportunity to practice your bartering skills.
3. To acquire one of those gismos that have not been made for about 200 years and this is a perfect time to add it to your collection.
4. To get rid of all those tools of questionable quality and get some good stuff.
5. To get a good idea of what the other experts in the club use.
6. So you can go home and announce to your wife that you traded a couple of things that you had absolutely no use for and acquired a Mark 7380 Model 27 Gismo in mint condition and that it will last several lifetimes and then be willed to your great-great grandkids. She will love you for your thoughtfulness.
7. The big reason? To hang out with the guys, compare notes, tell lies and maybe do a little horse-trading. You might even make a couple of bucks.

So there it is, time to clean out under the workbench, go through some of those boxes that you have neglected for years and identify those treasures that are soon to be reclassified as absolutely indispensable valuable tools that no-one could possibly do without, AKA, junk.

None of us are going to get rich but we will all get a kick out of a few hours searching for that new treasure to add to our collection or find a part for that gismo that you were going to trash but knew you could fix if and when you found the right part.

If you want to sell something a table is only \$10.00 and that goes to the school and the club. You can buy all you want!

See you there!

**Bring a guest to a meeting!**

Doug Henderson

**Dale Nish's additions to Rowley laws, but in a humorous mode:**

1. You can always make it smaller.
  2. It's only wood, and you can burn it at any stage.
  3. Catches are not problems, but rather artistic opportunities.
  4. The longer it has been since you had a catch, the closer you are to having one. Nobody gets it right all the time.
  5. Practice may not make you perfect, but it certainly produces a lot of shavings.
  6. If you're not having fun, you're probably doing something wrong.

### MENTORING PROGRAM

We are looking for some new mentors. The folks who are currently doing the great service have been doing it for a long time. George Kromka has stepped up to the plate but based on what I see every month at the show and tell table there could be a lot more. See any of the board officers if you are interested.

The mentoring programs has been set up to answer questions and give help to new members and those whom may be having a problem in a specific area. Although not intended to be free lessons in woodturning (many of those volunteering are professional turners and derive their income from turning and teaching), these are some friendly folks willing to give you a point in the right direction.
