## This month's Demo INLAY AND CARVINGS

### Featuring Stephen Hatcher

Stephen Hatcher was born in Colorado Springs, Colorado in 1953. He showed an early aptitude for realistic drawing, and after finishing high school earned income as a painter of murals. Though art has been a lifetime interest, several years at the University of Washington led to degrees in Electrical Engineering and Mathematics. During his 20-year career as an electronics entrepreneur, Stephen developed numerous cutting-edge devices for the wireless communications industry. Retiring from this field in 2000, he returned to art through his interests in wood turning and stone carving. Merging these techniques led to his unique style of artwork.

## Message from the President

On Sunday June 6<sup>th</sup>, 2010, OPCA AW will be holding an all day workshop. This event will attempt to cover a number of those subjects requested by our members in our recent survey.

The details are still being firmed up so we are presently at the advanced possible maybe stage (more to come).

In order to make the workshop interesting for as many members as possible we are planning to have several demonstrations as well as separate classes going on at the same time. You will be able to choose the subject you are interested in and when the class/demonstration is over go on to the next etc. Each class/demonstration will last approximately 45 minutes and limited to eight to ten persons to allow for maximum participation.

Tentatively we are looking at the hours of 10:00 AM to 3:00 PM so plan on bringing a sack lunch and soft drink. Lunch tables will be available.

For those wishing to sell or trade tools we will have several tables set up for that purpose. Please contact me at the next meeting April 28<sup>th</sup> if you plan on selling or trading.

Our Librarian will be present to sign materials in and out. We will try to have glue, sandpaper and sealer there also.

If you have a good buddy or girlfriend that you think might be interested in joining bring them along.

Suggestions are welcome at this stage of the planning.

Doug Henderson

## MENTORING PROGRAM

We are looking for some new mentors. The folks who are currently doing the great service have been doing it for a long time. Based on what I see every month at the show and tell table there could be a lot more. See any of the board officers if you are interested.

The mentoring programs has been set up to answer questions and give help to new members and those whom may be having a problem in a specific area. Although not intended to be free lessons in woodturning (many of those volunteering are professional turners and derive their income from turning and teaching), these are some friendly folks willing to give you a point in the right direction.
